

PEAK STAGE DIFFERENCES

alt4

Percent of years with max stage at least
0.50 ft lower than 07LORS

21 Apr 2006 18:19:36 Friday

Note: Map values do not distinguish between groundwater and surface water and should only be used as a general indicator of subregions that may have a change in peak stages. Those subregions require more detailed investigation and analysis before site-specific inferences about changes in flooding risk can be made.
